MEDIA PACK **2019**

# PACKAGING SCOTLAND

Packaging Scotland has developed an enviable reputation as the “go to” magazine for key decision makers in the lucrative Scottish packaging sector.

As the only packaging magazine published in Scotland, the title is uniquely placed to reflect industry thinking and offer insight and analysis on the sector north of the border.

Well respected within the industry, Packaging Scotland is committed to showcasing the latest innovations as well as covering both local and international news and presenting a variety of topical features and interviews. In each issue, readers have the chance to learn about new product launches, technology and industry events. Our website is also being constantly updated, meaning industry stakeholders can find out the latest news at the click of a mouse.

Produced by the country’s leading independent publisher, the title offers advertisers the perfect platform to reach the people who matter. As well as advertising space in the magazine and on the website, we also offer services including tailored packages of advertising and/or advertorials in the form of company profile pieces, case studies or Q&As. From a new product line to a significant anniversary, many companies find this an ideal way of getting their message across. Packaging Scotland can handle everything from writing the content to commissioning professional photography. Bespoke media partnerships are also available if you have an event, show, expo or exhibition to promote to the Scottish market.

### MECHANICAL DETAILS

PACKAGING has a composite pdf workflow - refer to digital specification listed below.

Adobe Acrobat 4.0 is the required software for PDF creation.

Files should be Acrobat 3.0 compatible.

Files should be Composite PDF, CMYK colour space.

Files should contain one page per PDF.

All fonts should be embedded and sub-setted below 100%.

Images: Colour bitmap images, CMYK - effective resolution 300dpi; Greyscale bitmap images - effective resolution 300dpi; Monochrome bitmap images (linework) - effective resolution 1200dpi.

Three millimetres bleed should be included on all sides where necessary.

The original document, prior to PDF, should not contain copy-dot scans, JPEG images, Multiple Master Fonts.

Crop marks should be included and offset by 10pt.

The creator should apply any trapping requirements regarding overprint and knockout. Specific trapping requirements should be highlighted prior to supply.

File names are restricted to alpha-numeric characters, the underscore character and the fullpoint e.g. PACK\_1106p01.PDF: Packaging, Packaging 2006, Page 1.

A hard-copy proof should be supplied which has been generated from the PDF file. A colour contract proof is required for colour checking, other proofs will be a content check only.

The file content is the responsibility of the originator. Test files should be submitted before production files are sent.

### ADDITIONAL CHARGES

Special positions - 15%

Bleed - 10%

Agency Discount - 10%

**COPY DATES** Two weeks prior to publication

**CANCELLATION** Eight weeks prior to publications
