THE MAGAZINE

Packaging Scotland has developed an enviable reputation as the “go to” magazine for key decision makers in the lucrative Scottish packaging sector.

As the only packaging magazine published in Scotland, the title is uniquely placed to reflect industry thinking and offer insight and analysis on the sector north of the border.

Well respected within the industry, Packaging Scotland is committed to showcasing the latest innovations as well as covering both local and international news and presenting a variety of topical features and interviews. In each issue, readers have the chance to learn about new product launches, technology and industry events. Our website is also being constantly updated, meaning industry stakeholders can find out the latest news at the click of a mouse.

Produced by the country's leading independent publisher, the title offers advertisers the perfect platform to reach the people who matter. As well as advertising space in the magazine and on the website, we also offer services including tailored packages of advertising and/or advertorials in the form of company profile pieces, case studies or Q&As. From a new product line to a significant anniversary, many companies find this an ideal way of getting their message across. Packaging Scotland can handle everything from writing the content to commissioning professional photography. Bespoke media partnerships are also available if you have an event, show, expo or exhibition to promote to the Scottish market.
